

Anchor Danly Fabrications

As a fabrication builder ourselves, we understand efficiencies play a large role in remaining profitable in today's challenging market and our value-added options available within our "Steel Plate Kits" can enhance this for you. Whether small or complex projects, we have the steel inventory and selective ordering options to save you manufacturing time with flame & plasma cutting, beveling, forming, blasting, pre-machining and sequence detail skidding.

Increase your welder's efficiency & effectiveness with spending less time prepping & handling of material and more time fabricating.

CONSIDER ANCHOR DANLY AS A QUOTING OPTION FOR YOUR NEXT PROJECT MATERIAL REQUIREMENTS!

STEEL INVENTORY:

- Thicknesses between 0.25" & 15"
- Standard grades include A36/44W/50W
- Specialty steels 1045 & 4140 – 1/2" through 6" thick

CNC FLAME CUTTING:

- Single & multi-head flame cutting units with maximum table size of 150" x 270"
- Plasma cutting up to a maximum of 1"

METAL FORMING:

- Hydraulic shear with 1/2" x 12" capacity
- Hydraulic press brake with 600 ton by 14' capacity

DESCALING:

- Continuous inline shot blaster accommodating 72" wide x 18" tall
- Contributes to a higher quality weld and deeper penetration

MACHINING:

- Horizontal and vertical CNC boring mills
- Blanchard Grinding
- Planer mill capacity
